ZEPPELINS IN ANOTHER RAID

London Says No Casualties Resulted
From Visit of Airships
Last Night.

(Associated Press)
Another Zeppelin raid over the east coast of England was conducted by the Germans last night with no casualties, London says.

Bulgarian Reservists Called.
Rome dispatches say that all Bulgarian reservists in Italy have been recalled to the colors.

Allies to Adopt New Measures.
New measures, the exact nature of which is not indicated, are to be adopted by the entente allies in the future conduct of the war, according to dispatches received here. The Italian cabinet is to deal with the subject at the next meeting.

Quiet On Peninsula.
There seems to be little recent activity in the Dardanelles. Reports from various sources describe conditions in Constantinople as chaotic, with much suffering of the population while reports from Athens declare the Turks' position on the Gallipoli peninsula as precarious.

Germans To Porte.
It appears established that Bulgaria has struck a bargain with Turkey regarding the Balkan situation and in Italy rumors are again current of an Austro-German offensive movement toward Constantinople to aid the Turks.

English Impressed.
English newspapers are devoting much space to the announcement by Lloyd-George, minister of munitions, that the nation must increase its efforts greatly if victory is to be assured.

Naval Engagement.
In a battle between Italian and Austrian naval forces on the Adriatic Thursday one Austrian torpedo boat was damaged by a French submarine which was acting with the Italian fleet, Rome reports.

London, Sept. 13.—It is officially announced that Zeppelins raided the east coast again Saturday night and dropped bombs. The official statement says that there were no casualties and no damage was done.

This is the third Zeppelin raid on England within five days. On Tuesday night of last week the raiders visited the east coast, killing seventeen persons and wounding forty-six. Most of the dead and injured were women and children. On Wednesday Zeppelins dropped bombs on London, apparently on the heart of the city, killing twenty persons and wounding eighty-six. Aside from the list of casualties the British censor has not yet permitted details of the Wednesday night raid to be put in cables.

JAMES BOYER WON CLOSE RACE SUNDAY

DIXON MAN SMASHED SEVERAL
RECORDS—AND THAT'S
NO "BULL."

James Boyer had a most exciting cross-country "run" Sunday afternoon, in which it is said he broke all existing records for sprinting and long-distance running. James, according to the stories which reach this office, was out near the Three-Mile branch when an angry young bull espied him. Mr. Cow hastily sought a closer acquaintance, and it was while he was approaching Mr. Boyer that the intended victim saw the bull coming. The race was on immediately. Mr. Boyer reached the goal—the top of a friendly tree—after hitting just a few high spots in several fields, and crossing the creek without swallowing one bit of water.

U. S. W. V. SMOKER

An important meeting of the United Spanish War Veterans, which will be followed by a smoker, will be held at the Co. G Armory Wednesday evening.

SPEED EVENTS WILL BE FEATURE OF FAIR

OVER SIXTY HORSES ARE AT AM-
BOY TO GO AFTER \$2,500
PURSE MONEY.

GREAT FAIR BEGINS TOMORROW

The speed events at the Lee county fair this week promises to be among the greatest held in this section of the state this year. Over sixty fast horses, most of which will be started in the events, are on the ground and the track, recognized as one of the best half-mile tracks in the country, is being worked constantly to get it in perfect condition.

Although the fair starts tomorrow—children's day, a day devoted to the school children of Lee county and their work—the races will not commence until Wednesday, the speed program for the week being:

Wednesday.
2:30 trot, purse \$350, entries, 24.
2:14 pace, purse \$350, entries, 23.
Green trot, purse \$100, entries, 8.

Thursday.
2:15 trot, purse \$350, entries, 25.
2:30 pace, purse \$250, entries, 21.
2:30 pace, purse \$350, entries, 16.

Friday.
2:24 trot, purse \$350, entries, 29.
Free-for-all pace, purse \$350, entries, 22.

2:19 trot, purse \$300, entries, 19.
The purses offered total \$2,500, and owners of the speeders are all planning to get a piece of the money.

Ready for Big Week.
The fair management has made arrangements for the biggest week in the history of the association; the number and class of exhibitions and concessions surpass any other year and every indication is for Lee county's most successful "punkin" show.

SNEAK THIEF STOLE TRAVELER'S FINE GUN

F. W. SCHMIDT, CANOEIST, RE-
PORTS LOSS OF HIGH POWER
SAVAGE RIFLE.

F. W. Schmidt, the canoeist who is making a trip from northern Wisconsin to the Gulf of Mexico and who has been camping near the milk factory for the past fortnight, reported to the police this morning that some time Sunday afternoon or evening a sneak-thief had entered his tent and stolen his rifle. He says he feels the loss of the weapon more than for its monetary value because he has had it an exceptionally long time. The gun is a 22-calibre high-power Savage, and was Mr. Schmidt's only protection. He says this is the first thing that has been stolen on this trip.

SUPERVISORS MEET TOMORROW

Regular September Meeting Will Be
Convened Tuesday Afternoon.

The Lee county board of supervisors will convene tomorrow afternoon for their regular September meeting, and a busy session is anticipated as many things of importance are slated to come before the county dads.

Washington, Sept. 13.—The next step in the attempted settlement of the Mexican situation will be taken by the Pan-American conferees as soon as arrangements can be made for them to meet.

MRS. ORTT HURT IN RUNAWAY

Dixon Lady Victim of Mishap At
Osakis, Minn., Saturday.

R. K. Ortt received a telegram late Saturday afternoon that his wife and a sister, Mrs. P. P. Flint, had been injured in a runaway accident at Osakis, Minn. The message stated that no bones were broken and that they were resting easily from the bruises sustained. Mrs. Ortt has been visiting at the Flint home in Minnesota for the past ten days.

Father Conley of Walton was in Dixon today.

DOCTORS UNCERTAIN CONCERNING STATUS OF "LEPROSY" CASE

WHITESIDE CO. PHYSICIANS ARE
GREATLY INTERESTED IN
LYNDON CASE.

HAS BEEN AFFLICTED 8 YEARS

One Big Toe and One Hand Are Parts
of Body Which Are Most
Affected.

Prophetstown, Sept. 13.—It has not been ascertained whether Dr. J. P. Tascher of Prophetstown has a patient with leprosy or not. The case has gained a wide reputation and doctors all over the country are interested in it, for most of the physicians have never seen anything of the kind. The case is that of Lou Lucia of Lyndon township. He has lived alone the most of his life and is unmarried. It is said he has been thus afflicted for eight or nine years. It is also said the afflicted parts are one big toe and the palm of one hand. He has signs of the disease on other portions of the body but not to any great extent. It is asserted by local doctors that there are two kinds of leprosy, one of the nervous kind, which is often not discerned to any great extent by others, and a kind that affects the body and limbs. It shows pus in many places and often becomes of a loathsome kind. It is not always of this nature although of the same type. It is said by many doctors that the disease is not always contagious only from intimate living. There are several leper colonies in the United States, in the Hawaiian Islands and in the Philippine Islands. There is one colony in Minnesota and one in Wisconsin. A doctor stated this morning that the name given to the disease was derived from the features of the patient being drawn lengthwise, and not from the supposed leopard-like spots on the body, as many think.

WEEKLY AUTO MISHAP; ONE BADLY INJURED

MACHINE TURNED TURTLE NEAR
DEER GROVE SUNDAY—ONE
MAN IN HOSPITAL.

(Special to Telegraph)
Sterling, Ill., Sept. 13.—An automobile owned and driven by Silas Morris of Tampico, skidded on a wet road near Deer Grove late Sunday afternoon and turned turtle, seriously injuring Thomas Hoarey, one of four occupants of the car.
Mr. Hoarey was thrown heavily against a post, suffering a compound fracture of the left leg near the hip, in addition to other less serious injuries. He was taken to the Sterling hospital today and the broken member was placed in a plaster cast. The other occupants of the car escaped injury.

KIDNAPPED AMERICAN ESCAPES

John Lowenbruck, Who Was Held
For Ransom, Makes Getaway

(Associated Press)
El Paso, Tex., Sept. 13.—John Lowenbruck, the American ranchman, who was kidnapped last week by Mexican bandits, taken across the border and held for \$2,000 ransom, has escaped from his captors, according to a special to the Times. The kidnapping had been referred to the state department at Washington.

PROGRESS CONTINUES

Continued satisfactory progress has been made by Miss Agnes Howell and Lee Ray, who were so terribly injured in last Monday evening's auto accident, according to reports from the hospital today.

TWO DRUNKS FINED.

The police gathered in two men on Saturday night who had indulged too freely and who had considerable difficulty in navigating. One was Peter Lannen and the other gave the assumed name of F. G. Smith of Polo. They were given a \$3 fine each and costs by Magistrate Kent.

SON BORN.

A son was born to Mr. and Mrs. George Huffman of near Oregon this morning. Mrs. Huffman will be remembered by Dixon friends as Miss Lena Lambert.

CZAR TAKES PLACE OF GRAND DUKE NICHOLAS AS HEAD OF RUSSIAN ARMY.

CZAR AND GRAND DUKE NICHOLAS

Photo by American Press Association.
[In a message to President Poincaré of France Emperor Nicholas announced that he has placed himself in command of all the Russian armies. Nominally the czar is supreme commander of the Russian forces. It is understood that when war started he was ambitious to head his troops in the field. He was persuaded, however, to give the command to his cousin, the Grand Duke Nicholas. Lacking military prestige and a commanding personality, it was felt the czar should yield to the grand duke, who is a giant, is one of the finest cavalry officers in Russia and is a commander of long experience. His executive ability was apparent in the closing operations of the Russo-Japanese war and in his successful efforts against revolutionists. He is the strong man of the Romanoffs. Frequently he has been mentioned as the probable regent if Russia should ever need one in his lifetime. Last winter it was rumored in Berlin that the czar wanted peace, but that he was overruled by the grand duke, who is said to have insisted the war be fought to a victorious finish. To the Russian populace the grand duke has been the hero of the war, and, despite reverses to the czar's troops, the commander in chief has been a national idol. His mastery of defense of Warsaw last winter stamped him as a fighter and strategist of first ability. When the Russians then were badly pressed at Krasnik and Lublin his generals counseled retreat. He decided to go on. His judgment was vindicated in the capture of Lemberg shortly afterward. The message of Emperor Nicholas to President Poincaré does not make it clear whether Grand Duke Nicholas has been superseded by the emperor. During the last few weeks there has been severe criticism of the conduct of the war by the Russian authorities. The minister of war, General Soukhomiloff, resigned, and the formation of a coalition government has been under discussion.]

GEO. LAING FUNERAL TUESDAY AFTERNOON

SERVICES WILL BE HELD AT THE
HOME IN NORTH DIXON AT
3:30 O'CLOCK.

HAD LONG CONTINUOUS SERVICE

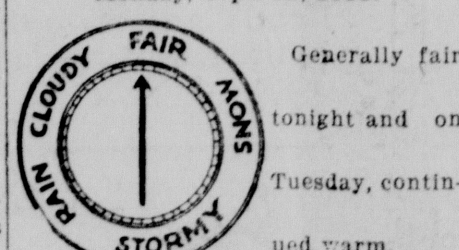

The remains of the late George D. Laing arrived here Sunday morning and were taken to the Laing home on East Everett street. The funeral will be held from there Tuesday afternoon at 3:30 o'clock, Rev. F. D. Stone of the Methodist church officiating.

George D. Laing was born in Dixon Sept. 28, 1853. He was educated in the schools of Dixon and acted as a clerk in the grocery store of Alfred U. Hazen for a short time after leaving school. In company with his father, who was then living, he engaged in the flour and feed business, in the year 1872. The death of his father took place soon after, and although then still under majority in years, he assumed the care of the business and the duty of supporting his mother and her minor children. This was the foundation of a long and successful career, until at the time of his death he was the oldest in continuous service of any of the active merchants of Dixon. During a few years of this time he was the partner of the late John Dysart in the grain business, which was conducted in connection

Brownsville, Tex., Sept. 13.—Mexicans attacked a party of American cavalymen two miles up the Rio Grande early today and in the ensuing skirmish two American troopers were wounded.
One American trooper was also killed by the Mexicans.

CASE DISMISSED

The case of Roland Hompton of Paw Paw, arrested a few weeks ago on the charge of committing a statutory offense, was called this afternoon in the county court and an agreement was reached between the interested parties and the suit was dismissed.

LINER, THREE DAYS FROM PORT, AFIRE

FABRE LINE SHIP 1600 ITALIAN
RESERVISTS ABOARD, IN
GRAVE DANGER

CARRIED NO ARMS OR MUNITIONS

New York, Sept. 13.—The Fabre liner, which is afire in mid-ocean is safe and is proceeding under escort to the Azores.

(Associated Press)

New York, Sept. 13.—The Fabre line steamship Santa Anna, which sailed from New York on Sept. 8 for Marseilles and Naples with 1600 Italian reservists in the steerage, a few passengers in the cabins and a crew of 100, was reported afire today on the Atlantic ocean, three days out from the nearest port, according to a wireless to the Cape Race station.

The Santa Anna's cargo was composed largely of foodstuffs and there were no arms or ammunition aboard, it is said. The sailing from New York had been delayed twenty-four hours because of rumors that bombs had been placed aboard the ship. Grave fears are entertained for her safety.

Many Ships Afire

Several vessels of the Fabre line have been set afire recently, say the New York agents; but the agents here have received no direct word from the captain of the Santa Anna that his ship is burning.

There are forty Italians from Chicago and the middle west aboard the ship.

TOOK WATCH AS JOKE; OWNER CLAIMS THEFT

BARBER OF DIXON VISITED BY
POLICE WHEN PATRON LOST
HIS TIMEPIECE.

B. A. Schmalt of this city reported to the officers Sunday morning that he had been "touched" for his watch. He stated that he had it when he entered a certain barber shop and after leaving the shop he reached for his watch to see what time it was and found that the timepiece was missing. The proprietor of the barber shop were questioned by the police in regard to their knowledge of the missing watch and were given until this morning to produce it. The watch was returned to the owner this morning. The party who had the watch contended that it was only taken in a joke but it came near being an expensive joke.

COMMISSIONERS PLACE SIGNS

Dixon Highway Officials Performed a
Useful Service for Travelers.

Highway Commissioners Tryon Rosbrook and Wm. H. Lenox are today erecting signs at the corners of the main traveled roads out of Dixon designating the distance to certain points. The signs will be greatly appreciated by travelers, as they will be able to tell if they are on the right road and the distance to the next town. The signs were painted by Charles McBride and are a black background with a white letter.

UNITED STATES AND GERMANY MAY ARBITRATE

SETTLEMENT OF QUESTION OF
INDEMNITY BELIEVED
TO BE NEAR.

VON PAPEN TO NEW POST

U. S. May Find Easy Way to Get Rid
of Objectionable Military
Attache.

(Associated Press)

Washington, Sept. 13.—Secretary of State Lansing after a conference with President Wilson today, announced that no decision had yet been reached on Germany's proposal to arbitrate the Arabe case at The Hague. It is indicated in official quarters that both Germany and the United States agree that to arbitrate the question of indemnity for American lives lost on the liner involves also the arbitration of the justification for and facts of torpedoing the ship.

Bernstorff In Conference.

Count von Bernstorff, German ambassador, conferred with Secretary Lansing for half an hour this morning, but neither would discuss the conference. From Bernstorff's manner however, some of the questioners inferred that the conference forecasts a favorable outcome and that probably arbitration will be agreed upon.

Violated Instructions.

Germany's explanation regarding the unsuccessful attempt to destroy the Cunard liner Orduna is that the commander of the submarine violated instructions not to attack any liner; but that he did so because he was unable to discern the character and nationality of the boat. The note dealing with the Orduna is now before President Wilson.

Washington, Sept. 13.—The departure from the United States of Captain Franz von Papan, military attache of the German embassy, will probably be arranged for here in a few days. This is now indicated here.

The situation involving Captain Von Papan in the matter which brought about the request for the recall of Dr. Dumba, the Austro-Hungarian ambassador, is recognized as most delicate. Nevertheless the attitude of this government is that Captain Von Papan has at the very least been guilty of an impropriety in attempting to transmit official reports to his government by using an American citizen as dispatch bearer and that this alone makes his further presence in this country as an accredited representative of his gov-

FORMER PASTOR AT LEE CENTER IS SUED

MRS. MARGARET KEMPSTED HAS
BILL FOR SEPARATE MAIN-
TENANCE IN CIRCUIT COURT.

In the circuit court this afternoon a suit for separate maintenance was filed by Mrs. Margaret Kempster of Lee Center through her attorney, W. G. Kent, against her husband, Rev. Frederick Kempster, who a few years ago had a pastorate at Lee Center.

According to the petition they were united in marriage June 7, 1900, at Sault Ste Marie, Mich., and continued to live together until about January 9, 1914, when the plaintiff was forced to leave him on account of extreme and repeated cruelty. She further charges Rev. Kempster as being of violent temper and on numerous occasions has called the plaintiff offensive names.

The petition further cites that the oratrix has a small amount of household furniture which she is using and keeping house with in Lee Center. That Frederick Kempster is owner of personal property and is at present pastor of the First Congregational church at St. Charles, Minn., and that his salary is about \$100 per month. She asks the court to compel him to make proper and suitable provision for her support.

SEE AMERICA FIRST—PUGET SOUND

Puget Sound was constructed many million years ago, but lay in a neglected and disheveled condition entirely surrounded by pine trees until the early seventies of the last century.

It is about 150 miles long, but is so littered up with islands that it does not appear to be very wide. A strong man can see across it anywhere. This, however, is because Puget Sound is decorated on both shores with mountains of great size and dignity. One of the pleasantest tasks in America is to stand at Seattle or Tacoma and look across Puget Sound at the Olympic Mountains. Owing to the fact that they are covered with fog in winter and with forest fire smoke in summer, this is a rare privilege. Old settlers in Seattle date events from the last time they saw the Olympics.

Puget Sound is a beautiful and harmonious collection of waters. It is famous for being the most peaceful body of water on the globe, which accounts for the phenomenal growth of

Seattle and Tacoma. They have been populated by travelers who are subject to seasickness and have gazed upon the calm sound waters after having endured 135° worth of ill health with tips extra on the Atlantic.

The greatest forests left in America come down to the edges of Puget Sound and the buzz saw and salmon cannery work overtime along its shores. The United States almost went to war over this collection of wetness in the forties and then forgot all about it for thirty years. Now it is lined with roaring cities which grow two acres every night and like nothing better than to cut down a 200-foot fir tree and build a 400-foot skyscraper in its place. Over six hundred thousand people now live around the Sound, though forty years ago the traveler who dropped his matches in these waters would have had to travel 150 miles to find the nearest cigar store.

Steamships from China, Japan, Europe and Alaska jostle each other in Puget Sound and more motor boats than can be found anywhere else on earth navigate its waters. It would take an industrious man 100 years to seek out all the beauty spots in this region with a motor boat, and many earnest, enthusiastic skippers are putting off their deaths indefinitely for this reason.

DEMENTTOWN DOINGS

Russia had the largest standing army in the world prior to the outbreak of the present war. Since then it no longer stands.

It seems as if the average man could do enough things to make himself appear ridiculous without wearing one of those new-fangled wrist watches.

Back to the Plow.

A farmer took his eight year old son to a newspaper office and said:

"I came to get some information, editor."

"I shall be glad to afford you any that I can," was the polite response.

"Well," said the farmer, "this boy o' mine wants to go into the literary business, an' I thought you would know if there was any money in it. It's a good business, ain't it?"

"Well, yes," said the editor, after some little hesitation. "I've been in it myself for some years, and—"

Whereupon the farmer eyed him from head to foot, glanced around the poorly furnished office, surveyed the editor once more and then, turning to his son, said: "Come 'long home, Jim, and get back to yer plowin'."

FIGHT FANS ARE SORE OVER BOUT

McFarland-Gibbons Go Leaves Bad Taste in Mouth.

FEW THINK PRINCIPALS TRIED

Packey True to His Reputation, Holds Up Management for Cut of Picture Receipts—Gibbons Declared Worst Offender in Stalling—State Boxing Board Head Is Angry.

New York, Sept. 12.—If Packey McFarland and Mike Gibbons did their level best at the Brighton Beach Motorhome Saturday night they fooled every person around that ring who is supposed to have any knowledge of the boxing art. Not one of them thought that the men were going at top speed. Gibbons was the one who came in for the most censure. A great and sure hitter at any stage of a contest, he deliberately turned tall and walked and sometimes even ran from Packey, who was simply standing up and using his open left much as a man would while whitewashing the barn yard fence. There wasn't the least bit of a sting to his taps. Yet Mike seemed terrorized. When he did punch at Packey there was a caustic flavor to his actions.

Many wondered what all the row was about when the fight was over. Packey made as if to thump Mike. For a second it looked as if the real fight was to come off. Mike wasn't in a fighting mood and Packey walked away.

It seems that in the afternoon before the fight McFarland went to the management and held them up for a cut of the moving picture receipts. He probably realized that no one had passed away of heart failure. When Mike refused to partake of the little aftermath Packey burned up a lot of film by walking around the ring shaking hands.

State Board Head Wrathful.

Those who had come thousands of miles to see the fight were greatly disappointed. Even Secretary of the State Athletic Commission Charles Harvey couldn't keep his seat without protesting.

"I didn't think they would do it. I didn't think they would have the nerve to before such a crowd and with so much at stake. It was the time and the place for a real fight," said Harvey after the fight.

He didn't say the men had faked in so many words, neither did he say that they had broken their legs trying.

FIVE DEAD IN NEGRO FIGHT

Attempted Capture of Wife Murderer Results in Fatalities.

Carlisle, Ark., Sept. 12.—Two white men are dead, a third is dying and two negroes are dead here, the result of the murder by her husband of the wife of a negro, Pat Bowers, early in the morning and the subsequent chase of the negro, who barricaded himself in his home and took his own life rather than be captured by the mob.

The dead are: Dr. C. L. Crawford, J. K. Johnson, Pat Bowers, negro, and Mrs. Pat Bowers. Chester Crawford is fatally injured.

UNCOVER HUGE ARSON TRUST

St. Louis Police Say It Is Most Gigantic Ever Known.

St. Louis, Mo., Sept. 12.—What detectives termed "the biggest arson trust which ever operated in any city" has been disclosed and according to the detectives, "a multitude of men, several of them capitalists," are involved.

The disclosures were made by one of four men arrested while they were delivering four barrels of gasoline to a factory which they said they had agreed to burn.

Germans Establish Balkan Air Route.

Paris, Sept. 12.—A message from Kayala asserts that according to reports, a regular air route has been established by the Germans from Orsova, Hungary, to Adrianople. Airplanes, it is said, are continually flying over Serbian and Bulgarian territory. Each of them is loaded to its full capacity, according to reports, with supplies for the Turks.

Greeks and Bulgars Battle.

Paris, Sept. 12.—Dispatches from Athens say that the Greek government has officially confirmed reports of a skirmish between Bulgarian and Greek border patrols, and that an official investigation will be begun at once, upon special order of the Greek war office.

Airship Shells Russ Baltic Base.

Berlin, Sept. 12.—The following German official statement was issued: "One of our naval airships Thursday night threw a number of bombs with good success on a Russian naval base at a Baltic port and its railway works. The airship returned unhurt, although it was fired at."

DIXON LOST HORRIBLE GAME TO STERLING

BASEBALL WAS GIVEN TERRIBLE BUTCHERING BY DIXON'S HOME GUARDS.

THIRTEEN BOOTS FOR LOCALS

Sterling Presented With Game—Huber Pitched Well; That Tells It All.

A bright, happy, sunny morning, at the beginning of the week's labors, when everyone should be joyful, is no time at all to dip into details of a story that is sorrowful and, in fact, painful. Therefore an extended account of Sunday afternoon's baseball (?) game between Dixon and Sterling is curtailed.

Every member of the Dixon team, with the exception of the right and left fielders, had at least one error and the infield played like a lot of school boys, with 13 boots. Of course Sterling won, 12 to 4, and copped the "honors" of the inter-city series—but where they can find room for any pride in taking Sunday's game is more than the average fan can see.

Huber pitched for Dixon and must be given credit for even trying to pitch with such support as he got, but did his damndest and held the visitors to six bingles which, coupled with the aforesaid thirteen boots, were sufficient. The game wound up the season—and if the remaining games (should more have been scheduled) were as bad as Sunday's everyone is thankful the stuff is off.

DR. SWINGLEY'S AUTO STOLEN

Machine Was Taken From His Garage Saturday Night.

A Ford automobile was stolen from the garage at the rear of Dr. L. B. Swingley's residence, 210 Monroe avenue, some time between midnight on Saturday and an early hour Sunday morning. Dr. Swingley having put the car in the garage shortly before midnight. The car number was 787,666, engine number 824,955 and license number 23,777. A reward of \$50 has been offered for the apprehension of the thieves and the return of the car.

FAMOUS STAR OF MOVIES IS COMING

ANITA KING WILL VISIT DIXON ON TRIP ACROSS THE CONTINENT.

Anita King, a Paramount movie actress of some renown, will be in Dixon within the next two weeks. Anita King, in a high powered Kissel Kar racer, is making a motor trip from the west to the east. She carries sealed messages from the mayors of Los Angeles and San Francisco to the executive of New York City, also a message from the Lasky studio to the home office in the eastern metropolis. Miss King travels alone in her big racer. She does all her own work that traveling on such a long journey will make necessary.

She plans to stop at the Paramount theatres along the way and give short talks concerning the Paramount pictures. She will stop at Dixon, DeKalb and other cities along the Lincoln Highway on her trip.

RUSSIA'S WORST FOE.

Russia's lack of munitions sufficiently accounts for the abandonment, without an effort of defense, of the very strong line fortified at great cost for the express purpose of making possible a stand against an invading army. But what has caused the lack of munitions? In part, no doubt, the paucity of sea stress has been put. The temporary withholding of the supply from Japan during that country's imbroglio with China had something to do with it. But it is difficult to escape the conclusion that graft and incompetence have been as disastrously at work as during the war with Japan, when Russia's worst enemies were dishonest contractors and grafting officials in high places, up to the very highest. The czar is a man of high character. The Grand Duke Nicholas, in command of the armies, is an incorruptible patriot. But they have had to make war on dishonesty and inefficiency as well as on the invader, and the enemy at home, as Washington found in the revolution, is the more dangerous. The first year has been devoted largely to getting rid of grafters, traitors and incompetents; if the war lasts long enough it may make an end of the rottenness in the bureaucratic system which has always been a cause of unrest in Russia. Every war has exposed it shamefully and has been followed by an earnest reform movement in which radicals have had the support of disgusted moderates who crave honest efficiency.—Spring field Republican.

SAVE MONEY NOW.

There are two good reasons why everybody should exert himself to save a little more money now than commonly. A purely selfish reason is that saving now counts more than saving during ordinary times. A dollar saved now will yield larger returns than a dollar saved two or three years ago, and more probably than a dollar saved two or three years in the future. Money saved now can be invested with as much safety as is humanly achievable so as to bring in 5 per cent or more. A few years ago savings invested in securities of similar strength would yield only 3 per cent. When this war is over the world is going to be very poor. Persons who have any money at all are going to be relatively rich. Those who save now will possess the world later on. Another reason for saving now is that it is the best thing a noncombatant can do to help the world from the fate that is being brought upon it by the war. Out of accumulated savings hospitals are founded, railroads are savings of the world, in so far as they exist in Europe, are being destroyed built, and new discoveries in science are made possible. The accumulated as fast as possible. By this destruction the world will be set back inevitably. Any American living outside the zone of general destruction, who saves money now will help so much to counteract this setback to civilization.—Colliers.

NOW IS THE TIME TO PREPARE.

Many newspapers throughout the country are sounding a warning to the people that should not go unheeded. They point out the fact that after the war is over there will be a new alignment among the powers of Europe that may not be any too friendly toward the United States. They will be made desperate by bankruptcy and will cast longing glances toward this land of plenty and riches. In their straits, the United States may be the object of attack and the country should be ready for it. We are reminded of the words of Washington that ought to burn themselves into the heart of every real American: "If we desire to avoid insult we must be prepared to repel it. If we desire to secure peace, one of the most powerful instruments of our rising prosperity, it must be known that we are at all times ready for war."

ON THE LINCOLN HIGHWAY.

The Lincoln Highway bulletins print the following
There is no longer room for doubt that his nibbs, the knight of the road, sometimes harshly called a tramp, has a keen foresight and proper ideas of the right way to travel. When the newspapers announced the great volume of transcontinental motor travel being carried both east and west by the Lincoln Highway, he promptly forsook his berth beneath the Pullman and now you'll find him along the route of the great memorial road ready to do anything but work in exchange for a ride with the tourist.

HUGHES SENTIMENT LIVES.

The Hughes sentiment is an active and formidable force in present-day affairs, and it will die hard. The reason is that he is everywhere regarded as conspicuously fit for the presidency. He has courage, enterprise, experience, sagacity and understanding. He has the public confidence in a remarkable measure. He is acceptable to both progressives and republicans, and he would unite the party. No stronger candidate could be nominated, and none so strong, probably.—Portland Oregonian.

A GOOD SIGN, ANYWAY.

There is an ancient belief that if we get by the tenth of September without frost, that there will be none for some time thereafter. There seems to be no logical reason for such a presumption but we repeat it here for what it is worth. It may at least encourage those who are anxiously waiting for the corn to ripen.

A MARVELOUS PERFORMANCE.

Germany and Austria are not only free from invasion of their own territory, but they occupy over 90,000 square miles of enemy territory in the west and east. This is surely a remarkable record considering the odds they are fighting against.

That fellow Dumba had the nerve of a cast iron monkey if anybody ever did. President Wilson is to be congratulated upon his decision to send Dumba home to his mother.

Mister Dooley says that he will believe anything if it is told to him often enough—which is one of the big truths and fundamentals of advertising.

Dr. George Stoddard Began Dixon Pastorate On Sunday

Rev. Geo. W. Stoddard and family arrived in this city Saturday evening. He is the newly elected pastor of the First Baptist church and his work opens auspiciously. Yesterday was a good day for both pastor and people.

At the morning service he spoke on the subject, "Our Church Home." Text, 84th Psalm. David penned this Psalm while in exile from Jerusalem, during Absalom's rebellion. He had a real case of home sickness for God's temple in the Holy City. He wanted to meet with God and His people in the sanctuary. He said: "My heart and my flesh crieth out for the living God." Have you had that feeling? Wanting God? Are you homesick for God's house?

The he spoke of the one church home idea. Every person ought to have a church home. You cannot belong to a dozen churches. There are too many church tramps. You never know where to find a church tramp. Think of the demoralized condition of society if people would refuse to become members of the church for one generation. The church has held the world together.

At the evening hour, the speaker took for his text: "The time has come and the Kingdom of God is at hand; repent and believe the good news."

His subject was "Man's Will the Barrier Between God and Man." His sermon was in part, as follows: The authorities were enraged against John the Baptist, because he taught repentance, and he was committed to prison. Then Jesus went to Galilee preaching repentance and used the language of my text, and when he taught his disciples, he told them to preach the same doctrine.

It is a grand doctrine of religion and should be taught more from our modern pulpits. If we should attempt to eliminate the passages on repentance, we would simply neglect or do away with one of the most important teachings of Christianity.

What is repentance? According to etymology it means a change of mind. If we are to rightly understand what change takes place, it must be of an inward character and not of an outward manifestation.

"Let us understand our minds and be guided by the Bible. I think we are safe in our psychology. We are taught by the science of the mind that the mind has three distinct faculties: First, the power to know; intelligence; second, the power to feel, sensibility; third, the will power, determination. The mind can choose and execute now. Let us notice briefly, what repentance is not, then we can determine what it really is."

FORMER DIXON MAN DIED IN SOMERSET

ALEXANDER MARKEL SUCCUMB-
ED TO HEART FAILURE
LAST SUNDAY.

WAS COUNTY TREASURER THERE

The following item, taken from a Somerset, Pa., paper received last week by Mahlon Burket of this city, under date of Sept. 8th, concerns a former well known resident of Dixon; Alexander Markel, treasurer of Somerset county, Pa., died suddenly at his home on the south side about 7:30 o'clock Sunday evening while preparing for church. Death was due to heart failure. With his family Mr. Markel had spent the day with relatives in Myersdale, and upon the return home between 6 and 7 o'clock was seized with an attack of heart trouble, at which time a physician was summoned, but without avail. Mention of Mr. Markel's illness was made in the Standard last week, detailing how he had fallen on the sidewalk while on his way to the court house. The attack came on him without warning, causing him some alarm and prompting him to have his attorney prepare his will.

Alexander Markel was a son of Leopold and Eliz. (Wunch) Markel and was born in Larimer township, Pa., 65 years and one month ago. After acquiring a common school education he turned his attention to the trade of boiler making and after finishing that trade he took up blacksmithing, which he followed at different towns, Dixon being one, making the second trip here, until he was elected county treasurer almost four years ago in a spirited contest, by a handsome plurality. The decedent was a devout member of the Lutheran church, an ardent republican, a conscientious official and a good citizen. Before being elected to the county office he had served his constituents as assessor for seven years, as constable for three years and as tax collector for two years. He was a member of the Independent Order of Odd Fellows and of Pioneer Lodge, Knights of Pythias. A delegation of knights, headed by Burgess Gress, came from Myersdale to attend the funeral. The decedent was married Oct. 30, 1877, to Lucinda Ankeny who survives with four children: Estella, wife of George Elcher, and Martin L. of Akron, O.; Clayton C. and Ada at home, who has been acting as deputy for her father; and two sisters, Mrs. Mary A. Bittner and Mrs. Minnie C. Werner, both of Myersdale. Funeral services will be held this (Wed.) afternoon at 3 o'clock, the Rev. I. Hess Wagner, pastor of the Trinity Lutheran church, officiating. Interment in the Union cemetery.

Why will ye die? I'll let you answer.

You remember when Paul and Silas were preaching at Philippi and an excited crowd gathered around them. After a short time the officers had those men who were preaching repentance put in prison. You know what happened about midnight. There was a strange movement about the prison, which caused the jailer, who was asleep, to awaken. He stood amazed. He stood amazed before the prisoners, and conviction came to him from God. When he did not want. God sent it anyhow.

He saw that he was lost and he said to the men of God: "Sirs! what must I do to be saved?" I would like to tell of Felix, when he trembled before Paul, and of Festus, when he was mad, and of King Agrippa, when he said: "Almost thou persuadest me to be a Christian, but time will not permit." I may say however, in concluding, God's spirit convicts men. You have felt its power. Christ promised the Spirit and the Spirit is now at work in the world. "Except ye repent, ye shall perish."

GIRL AVIATOR INSTRUCTS.

Teaches School Children at Texas Military Colleges.

Practical instruction in aviation for school children by a young girl aviator probably is the latest addition to the curricula of military colleges and high schools. The new course has been tried out with the school children of the San Antonio (Tex.) military colleges and high schools, and has proved an instantaneous success.

The pupils were taught the principles of aerodynamics in the class room. Then each student body elected one of their number to undertake the coveted duty of experiencing a real flight with the aviatrice. She thereupon took the lucky candidates aloft in her Wright biplane for twenty minute rides. The machine was equipped with duel control, and the pupils were allowed to manipulate the warping and elevator levers. Following these practical lessons in the science of aviation, each amateur aviator was required to deliver a speech before his classmates, telling "how it felt." Much enthusiasm was developed and straightaway several model aviation clubs were established in San Antonio.

No less interesting than the flights was the aviatrice, Miss Katherine Stinson, and her wonderful control of her machine. Miss Stinson owns and flies two aeroplanes, one a Wright biplane and the other a machine of her own design. She is the proud possessor of pilot license 148, from the Aero Club of America. She has made 1,165 flights, and she has carried 500 passengers.—Technical World.

LONDON REPORTS NO DAMAGE

Berlin Says Raid Was Successful. Amsterdam, Sept. 13.—(Via London.)—The following official statement was issued in Berlin regarding Saturday's night's air raid on London: "During the night the London docks and their environs were successfully bombarded."

Russ Continue Offensive.

London, Sept. 13.—There is still no sign of waning in the battles which are being fought along the eastern front that now runs almost directly north and south from Riga to the Roumanian frontier.

From Riga southward to the Galician border the Germans and Austrians, who are continually receiving reinforcements and supplies of munitions by railway and river, are endeavoring to force their way to the Dvina and the main trunk of the important railway lines.

The Russians continue their offensive and, according to their accounts, with excellent results. The Austro-German offensive is making slow but steady headway, particularly along the road to Slonim and Pinsk.

Kaiser Ousts Von Kluege.

A dispatch to the Exchange Telegraph company from Amsterdam says:

"Emperor William has dismissed General Von Kluege, commander of the eighth division, who was held responsible for the Austro-German check by the Russians on the Sereth river in east Galicia."

Russ Reiterate Victory.

Petrograd, Sept. 13.—An official statement issued says in part:

"The Austrians and Germans have been dashing from one side to the other in an effort to strike a decisive blow. The German official statement of Sept. 9 contradicts the statement made in our communication of Sept. 8 that we took numerous prisoners and captured thirty guns and machine guns."

"The great general staff considers it its duty to explain that it always has endeavored, within the limits of humane force and the rules of military art, to present each event in its reality, avoiding any trace of partiality."

CHASING THIRD NEGRO IN SOUTHERN ILLINOIS

Murphysboro, Ill., Sept. 13.—Hundreds of men of Jackson and the surrounding counties are searching for a negro named Howard who shot and dangerously wounded Marshal Harvey Hagler of Carbondale. It is said that several of the posesses have declared Howard will be lynched if caught.

Howard was in a fight with another negro when Hagler and Marshal McGill interfered. Howard turned his gun on the officers and the first shot struck Hagler.

Fifty shots were exchanged in a running battle between the negro and Marshal McGill before the negro escaped. Soon after the shooting many Carbondale men gathered and began a systematic search for the negro. They were joined by posesses from Murphysboro.

This last shooting coming on top of the murder in Murphysboro Thursday night of John Atkinson, a labor leader, by Bracey Foree, a negro, and the murder of Mrs. Elizabeth Martin in her home in this city July 29 by Joe De Berry, has aroused the anger of the people.

with his other mercantile operations. His record as a business man was one of honor, uprightness and unremitting industry. Mr. Laing was a very prominent and faithful member of the Masonic fraternity. He was given from time to time appointment to all of the exalted positions in the Masonic organizations at Dixon, commencing with the position of Worthy Master of the lodge, and including that of High Priest of the Chapter and commander of the Dixon Commandery No. 21. He was also a member of the order of the Mystic Shrine at Rockford. He was an alderman of the city of Dixon during the years 1885 and 1886. In all of these positions he was known as a worthy citizen of the highest integrity. Perhaps one of the highest attributes that can be paid to his memory is to say that he never faltered in prompt and liberal assistance to all movements that were in the interest of the advancement and improvement of our city, and no one offered more congenial encouragement in connection with the necessary work attending such movements.

Kindly and courteous in his demeanor, sympathetic in his companionship, and above reproach in all of his business relationships, he leaves a large circle of friends who will mourn his departure.

The deceased is survived by his brother, John T. Laing, and his two sisters, Miss Jennie Laing and Mrs. William S. Morris, all residents of Dixon.

The funeral services will be under the auspices of Friendship Lodge No. 7, A. F. & A. M., with Templar escort. All members of the Masonic order are asked to meet at the Masonic hall at 3 p. m. sharp and march in a body to the house.

HILL BOOSTS BIG WAR LOAN

Rail Magnate Hurries East at J. P. Morgan's Invitation.

St. Paul, Sept. 12.—James J. Hill arrived in New York this morning to aid in handling the largest financial deal in the world's history. He was asked to go to New York by J. P. Morgan to help direct the loan to European governments that will amount to from \$500,000,000 to \$1,000,000,000.

Hill is fully prepared for what a financial transaction may in large measure determine the course of the war. He will lay before the meeting data to show that if the loan is not made our surplus crops will be useless. He will insist that the loan be made to such nations as are trading with us, who are in a position to secure reasonably the loan with collateral.

BERLIN BIRTHS FALLING OFF

Last Year, 3,370 Babies Were Born in July, This Year 2,520.

London, Sept. 12.—A decrease of approximately 25 per cent in the birth rate of Berlin for July over the same month in 1914 is reported in a Reuter dispatch from Amsterdam.

Official returns show that while while 3,370 children were born in the German capital in July, 1914, only 2,520 were born in July, 1915. The number of births for May, June and July of 1914 was 10,030, while it was only 7,523 for the same quarter this year.

AFTER SUFFERING TWO LONG YEARS

Mrs. Aselin Was Restored to Health by Lydia E. Pinkham's Vegetable Compound.

Minneapolis, Minn.—"After my little one was born I was sick with pains in my sides which the doctors said were caused by inflammation. I suffered a great deal every month and grew very thin. I was under the doctor's care for two long years without any benefit. Finally after repeated suggestions to try it we got Lydia E. Pinkham's Vegetable Compound. After taking the third bottle of the Compound I was able to do my housework and today I am strong and healthy again. I will answer letters if anyone wishes to know about my case."—Mrs. JOSEPH ASELIN, 606 Fourth Avenue, Minneapolis, Minn.

Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, contains no narcotics or harmful drugs, and today holds the record of being the most successful remedy we know for woman's ills. If you need such a medicine why don't you try it?

If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass., for advice. Your letter will be opened, read and answered by a woman, and held in strict confidence.

RAISE ROSES BY THE TON. Cities, During Winter, Cultivate Flowers Under Glass.

How flowers are grown in winter is as much of a mystery to many intelligent people as is their high price and scarcity just when they are most wanted. Spells of extreme cold, with dull and cloudy weather, is to them only an incident, while to the rose grower it is a serious handicap.

Very few people realize how much money is invested in the business of growing roses or cut flowers. In the infancy of the business a greenhouse, 100 by 20, was considered very large. In many establishments houses are now seen 500 to 600 feet in length, with a width of fifty to seventy-five feet. In fact, houses covering an acre of ground are now quite common, as one large house is found to be more economically managed than a number of smaller structures covering the same area of ground.

Roses were first forced for winter cutting in Boston, Mass., which city for a time supplied the country with Epsilone and Soffrano roses. New York and Philadelphia were, however, soon in the work, and before long not only supplied their own market, but enjoyed a large shipping trade.

Chicago has now the largest supply, more acres of glass being devoted to the business there than in any other city of the country.

Many cities and towns within a radius of 1,000 miles of Chicago depend on that city for their supply.

One of the largest growers for the Philadelphia market is the Joseph Leacock Co. of Roelofs, Pa. The greenhouses of this corporation cover about two acres of ground. They are up-to-date in every respect, of iron frame set in concrete, made light in structure, to admit all the sun possible and properly ventilate.

THESE ARE ODD NAMES. Ship Cargoes of Old Had Strange Designations.

What are Nankins, Boglepores, Sinechaws, Lutestrings and Pelons? No! They are not names of oriental rags and lustrings have no reference to musical instruments. Few people in Boston can today tell you what these names refer to, and yet a century ago everybody in the city had an intimate acquaintance with them.

Lying at a Boston wharf on May 13, 1800, was the good ship Eliza, Capt. Rowan, from Canton, China. She was a remarkably fast sailing vessel, off the stocks less than four years, with newly coppered bottom and unusually well armed for a merchant vessel of that time.

She had been in port but a few days and on the date mentioned was sold at public auction, together with her cargo, by J. & T. H. Perkins, a leading firm of auctioneers at the time.

These facts are set forth in the columns of a Boston newspaper, the Massachusetts Mercury, of May 13, 1800, and the advertisement announcing the nature of her cargo and the sale appeared in print several times before the date of the auction.

The cargo was listed in lots, for convenience at the sale, and these itemized lots give a clear idea of the kinds and colors of the materials which comprised the home and street dress of men and women in Boston at that date.

By a brief study of the lots offered for sale in this cargo the explanation of the names mentioned in the first paragraph of this article is apparent. Of Nankins there were 690,000 yards; of Boglepores there were 5,400 yards; of Sinechaws there were 5,400 yards; of Lutestrings there were 6,678 yards; and of Pelons there were 4,500 yards.

FIELD MARSHAL HAS HAPPY WAY WITH MEN

PAYS LITTLE ATTENTION TO CEREMONY IN TRIPS THROUGH BRITISH FORCES.

SPENDS MUCH TIME IN FIELD

British Headquarters, France, Aug. 30.—Correspondence of Associated Press.—The only man of hundreds of thousands at the British front who wears the crossed batons of a Field Marshal appeared, in an opening in the shrubbery where a machine gun battery of the new army was waiting for orders to move.

None of the men in the battery knew he was coming. They were chatting and lounging as they waited. In a glance all identified that sturdy figure with its square chin and the white drooping moustache with the pictures they had seen in the papers. There was no need for a call to attention. The effect was like an electric shock which sent every man to his place and made his backbone a steel rod.

"Does Sir John French often slip up on you that way?" gasped one of the battery lieutenants who was all of 19 years of age. Nineteen is the limit of youth for men in the new army, and there are scores no older. From the one chocolate drop on that boy lieutenant's sleeve to the crossed batons represented a dizzy altitude.

The battery had just come out from England. It took the commander-in-chief about five minutes to form his judgment of the results of their nine months' preparatory drill. He asked a few questions as he looked over each gun and its crew.

"Very good," he said, and returned to his car which was to take him on to inspect other formations.

"Any idea that the commander-in-chief spends all his time over a map with a telephone at his elbow," as the staff officer explained, "is quite erroneous. He is always on the go."

The automobile enables him to get over a lot of ground in a day. Sometimes the inspections are quite formal. Different battalions of a brigade drawn up in field await his coming. Commanding officers know of his approach when they see the flag of his car fluttering along the road. On such occasions he usually makes a little speech. Once when a platform had been arranged for him to address a battalion he passed it by and went closer to the men standing in the field with their rigid columns around him. After that platforms were out of fashion.

"TIZ" FOR TIRED SORE, ACHING FEET

Ah! what relief. No more tired feet; no more burning feet, swollen, bad smelling, sweaty feet. No more pain in corns, callouses or bunions. No matter what ails your feet, or what under he sun you've tried without getting relief, just use "TIZ."

"TIZ" draws out all the poisonous exudations which puff up the feet. "TIZ" is magical; "TIZ" is grand; "TIZ" will cure your foot troubles so you'll never limp or draw up your face in pain. Your shoes won't seem tight and your feet will never, never hurt or get sore, swollen or tired.

Get a 25 cent box at any drug or department store, and get relief.

SCHOFIELD HOTEL AND COTTAGES

This popular resort is almost as well known as the Dells. It has been entertaining summer guests for forty years, and has lately been enlarged in capacity by the erection of a large modern building, fully equipped with every modern convenience, and affording dining room, assembly parlors, etc. This is an addition to the popular cottage plan, and adds to the previous popular attractions of the older system. The hotel and cottages are in extensive grounds, delightfully shaded by large oaks, and being away from the river is most especially desirable for families with children. The location is in the edge of Kilbourn on a pretty resident street, but a pleasant walk from the river and depot, and with regular free bus and carriage service to these points. The large hotel is not surpassed in this locality in point of modern style and comfort. The annex cottages and grounds make it altogether everything that anybody would desire. The test of efficiency is in the table. This hotel is especially noted for its excellent table board. Fresh butter, eggs, vegetables and fruit are supplied daily from the farm, and its preparation by a professional chef is perfect; chicken dinners twice a week.

family for week or longer. Rooms with bath must be applied for in advance.

Rates: \$2 per day, \$12 per week, half rates for children; rates made to family for week or longer. Rooms with bath must be applied for in advance.

MRS. DURAND FOILS SLAYERS OF CATTLE

Injunction Saves Herd Temporarily; Expert Advises Her.

Chicago, Sept. 13.—Plans of members of the state live stock commission to kill the prize herd of sixty-one Guernseys owned by Mrs. Durand, society dairywoman of Lake Bluff, were foiled by a midnight injunction issued by Master in Chancery Heydecker of Waukegan.

When B. J. Shanley, president of the live stock commission, arrived at Mrs. Durand's home, Crabtree farm, with fifteen men to do the work of slaughtering, he found deputy sheriffs waiting to serve him with an injunction forbidding the slaughter.

The injunction issued is only temporary, and when the regular term of court opens an attempt will be made to have the injunction made permanent.

Mrs. Durand is acting on the advice of Dr. Henry B. Favill, who has advised the owners of pure-bred cattle that a ninety-day quarantine not only saves the animals, but is more effective to stop the spread of the disease than to slaughter and fumigate.

"Dr. Favill says that a three or four months' quarantine will be effective to check the spread of the disease from my place," Mrs. Durand said, "and that the cattle will be all right at the end of that time."

FAMILY STRANDED BY BABY

Playful Infant Tosses Purse Out of Train Window.

St. Louis, Mo., Sept. 13.—The eighteen months old daughter of Mrs. Glenn Teeter of Sault Ste. Marie, Mich., threw her mother's purse, containing transportation, from the coach window at Lake Crystal, Minn. Mrs. Teeter and her four children are stranded here. Owing to the long illness of Mr. Teeter, Mrs. Teeter decided she would spend several months with her sister in Los Angeles. The sister sent her the funds to make the trip.

At Lake Crystal the baby daughter, who had been given the purse to play with, threw it out of the window. Section hands were sent back immediately, but failed to locate it. Mrs. Teeter is being cared for by the local charity organizations.

WITNESS AFTER WITNESS IN DIXON

SUCH EVIDENCE OUR READERS CANNOT DISPUTE

As we take up the Telegraph week by week, we are struck by the hearty unmistakable way in which witness after witness speaks out as Mrs. Fine does here. If these people were strangers living miles away, we might take little notice of them. But they are not. They are our neighbors living among us. Their word is too easily proven to admit of any doubt. They speak out in the hope that their experience may be a guide to others.

Mrs. J. L. Fine, 1006 Peoria Ave., Dixon says: "I have suffered for years from kidney trouble. My back ached and pained so severely that I had to stay in bed. I had headaches and dizzy spells and specks appeared before my eyes. My wrists and ankles also swelled. I procured Doan's Kidney Pills at Leake Bros. Co's. Drug store and they helped me. They have never failed to give satisfactory results.

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Fine had. Foster-Milburn Co., Props., Buffalo, N. Y.

VON BERNSTORFF AGREEABLE

(Continued from Page 1)

Erment quite undesirable. There is also reason to believe, officers say, that he was a party to Dr. Dumba's other offense in planning to conspire against American industry.

May Be Shifted.

On the other hand, the administration is not desirous of making trouble, and hence is reluctant to dismiss him peremptorily from his post at the German embassy here. Consequently it was considered that the problem might be solved best, and with the least embarrassment to either the German or American government by bringing about his assignment to other duties other than that of military attaché of the embassy here.

Count Von Bernstorff saw Secretary Lansing today. It is believed that in the course of their discussions the Dumba matter came up and this afforded an opportunity for the reaching of an understanding with regard to the case of Captain Von Papen.

Officials are inclined to accept the unofficial reports from Europe indicating that the Vienna government will promptly accede to the request of the United States and will issue his recall at once. The incident is now regarded as practically ended so far as Ambassador Dumba personally is concerned.

VICE LAWS ARE SUFFICIENT

Lieutenant Governor Barrett O'Hara

Says Illinois is Suppressing It.
Alton, Ill., Sept. 13.—The laws now on the Illinois statute books are sufficient for the suppression of commercialized vice if enforced, Lieutenant Governor Barrett O'Hara declared when the state senate vice investigating committee convened here.

The lieutenant governor said his belief was based upon conditions in Alton, where the segregated district has been obliterated and the saloons have been compelled to close on Sunday. He said the committee probably would not ask the passage of any additional laws.

EATING DIRT SAID TO CURE DISEASE

CLAY IS CURE FOR CHOLERA, AC-
CORDING TO MEDICAL
DISCOVERY.

Dry Powder Held To Have Healing
Effect on Membranes.

Eating dirt—a prescription long disesteemed by an ignorant and prejudiced public—has at last secured the beginning of due recognition as a medical measure of high virtue and validity. The new medical doctrine of bolus alba (which may be translated into kaolin, fuller's earth, hydrous silicate of alumina, or the more rigidly scientific H4 A12 Si2 O2) comes to us simultaneously from Chicago and from the Teutonic allied military doctors on the Galician battle front, and therefore may not be lightly put aside. In truth, the veracious reports from many sources compel a surprising revision of our customary notions in regard to a number of things. On the battle front in eastern Europe it appears that the Teutonic doctors have successfully combatted the dreaded cholera and the dysentery patients with porcelain clay, so that the cheapest conscript among them all has stood up to the Russian hordes as staunchly as a taffeta petticoat on a Boston bargain counter.

Rumors that the Austrian troops lacked "sand" are thus seen to be technical distortions of the truth. For it is evident that the popular conception of sand, in a military sense, has been mistaken. We have been mis-educated by Kipling's stories of the English subaltern in India to the idea that the military virtues of pipelay resided in the application of that substance of puttees. Ah, those blundering Britishers! If they had put their pipelay inside, what might they not have accomplished against the plagues of their eastern empire! Sand, indeed! When history seems to be on the point of recording that the Dukia Pass was successfully barricaded with Austrian porcelain—unbaked! There is much in this matter that deserves our serious attention and examination. Before we touch upon details, let it be stated summarily that kaolin, or fuller's earth, clears the human body of many kinds of microbe intruders; clears the throat of the dangerous diphtheria carrier; is an antidote in morphia, ipecac and strychnia poisoning, and makes the bitter quinine sweet to the childish palate. The detailed items of the catalogue are now in order for closer inspection.

In spite of its more or less humorous associations, the use of kaolin (porcelain clay) or fuller's earth as a medicament for human patients seems to have a very solid, if somewhat obscure, scientific foundation. Fuller's earth was formerly much used for taking the grease out of woolen cloth, during the manufacture. It is sold by the drug stores of today under various names, such as "precipitated French chalk," and is used by housewives and others for soaking up grease spots from inappropriate places. The material is a fine white, or whitish clay, not much sticky or plastic. Its very minute, irregular shaped particles have a remarkably absorptive power and it is this quality which gives the substance its efficiency against at least some of the bacterial invaders of the human body. Very specific and striking testimony to its efficacy is presented in an article just published by Drs. Hektoen and Rapaport of Chicago, who give the results of their use of it against diphtheria and scarlet fever at the Durand hospital in Chicago. They use the name "kaolin" for their material. "Kaolin in a dry powder," say the Chicago doctors, "removes not only diphtheria bacilli, but also practically all bacilli from the nose in the course of three or four days." A bad diphtheria throat has been completely cleared of bacilli by the same agency in two or three days. The nose "cold" of scarlet fever is stopped by kaolin, and examination has shown that the miscellaneous dangerous streptococcus (familiar to Boston in deadly milk borne epidemics of sore throat) is one of the organisms for which the particles of kaolin have a potent affinity.

In treating the nasal membranes with kaolin, the dry powder is blown into the nasal passages ("insufflated") by means of a rubber bulb and a glass tube. The process is carried out at two-hour intervals (in the Chicago practice), the powdered kaolin being dusted in six or seven times at each application. The particles absorb the moisture on the surfaces of the lining membranes, and with the moisture all the microbes living therein with which the particles come in contact. Although the powdered kaolin has a chalky, dry, taste upon the tongue, its use in the nasal passages is reported to be wholly nonirritating. For clearing the throat of microbes the powdered kaolin is swallowed slowly in one-third of a teaspoonful doses four or five times an hour during the day. This probably is not an affirmatively agreeable treatment; but those who have spent perhaps a week after being sick with diphtheria trying to get a clean throat by gargling with corrosive sublimate solution (it is done) may count the clay cure not so bad after all.
